MINING CLAIMS/LEASES

In terms of Sections 71, 85, 260 or 279 of the *Mineral Resources Act 1989*

- an "owner" may object to the granting of a Mining lease/claim; and
- an applicant for a Mining lease/claim is required to reach agreement for compensation with the "owner" of the land.

Where the State is the owner of land:

- Applicants for mining leases/claims must seek consents from and negotiate compensation with the State Land Asset Management business unit within the Department of Natural Resources and Mines (DNRM) Regional Offices, in addition to giving a copy of the certificate of application (leases and claims) and a copy of the application.
- If there is no objection to the claim/lease then a **Compensation Agreement** as per attachment 1 is to be completed by the relevant delegated officer.
- Holders of prospecting permits, exploration permits and mineral development licences, who wish to enter land owned by the State, must seek consent from the State Land Asset Management business unit within the Department's Regional Offices.
- The Government Land Register, and the department's Land Asset Management System (LAMS) and Notings database must be noted in relation to the claim or lease.

DEALINGS UNDER THE LAND ACT 1994

In terms of Section 20 of the *Land Act 1994* (Land Act) unallocated State land, the subject of a mining interest, is still unallocated State land for the purpose of dealing with it under the Land Act.

However, the Land Act dealing cannot affect

- (a) the rights of the holder of the mining interest or the successors of the holder; or
- (b) an agreement made, or anything else done, under the *Mineral Resources Act 1989*.

A mining interest means a permit, claim, licence, lease or other authority held under the *Mineral Resources Act 1989*.

Although the Mines business unit of the Department is responsible for the above legislation and has specific interest in some areas of the State including Mining Lease No 8058 Mount Isa, when giving consideration to dealing with land under the Land Act, a search of the records of that business unit sought) in the first instance, as the proposed use under the Land Act may not be consistent with the mining interest.

Note: Although section 20 of the Land Act also has reference to the *Petroleum Act 1923*, the *Petroleum and Gas (Production and Safety) Act 2004*, the *Geothermal Energy Act 2010* or the *Greenhouse Gas Storage Act 2009* and authorities under those Acts, this Notification deals only with the *Mineral Resources Act 1989*.

Responsibilities

Implementation by all operational State Land Asset Management staff dealing with applications for:

- i. Mining claims or leases in terms of the *Mineral Resources Act 1989*; or
- ii. Dealings including leases, licences, permit to occupy, reserves, road opening or grants in terms of the *Land Act 1994*

over unallocated State land, road or reserve.

Definitions

Owner (general definition - for full particulars, see the definition of owner in the Schedule of the *Mineral Resources Act 1989*).

RESERVE:

- i. the Minister responsible for administering the Act under which it is a reserve
- ii. A resources reserve under the *Nature Conservation Act 1992* and there is a trustee - the trustee for the reserve

NOTE: If a lease "State Lease" has been granted over the reserve, the lessee is also the owner. If a "Trustee Lease" only has been granted, the State is the owner.

ROAD: The entity having control of the road

UNALLOCATED STATE LAND: The State of Queensland
