Queensland's major mineral, coal and petroleum operations and resources

**Major mining operations and mineral resources**

**Metals**
- Mine (including under construction)
- Closed production / Care and maintenance

**Industrial minerals and rocks**
- Mine (including under construction)
- Closed production / Care and maintenance

**Gemstones**
- Mine (including under construction)
- Closed production / Care and maintenance

**Coal**
- Mine (including under construction)
- Conventional operations
- Mine (including under construction)
- Conventional operations

**Coal seam gas**
- Mine (including under construction)
- Conventional operations
- Mine (including under construction)
- Conventional operations

**Oil**
- Mine (including under construction)
- Conventional operations
- Mine (including under construction)
- Conventional operations

**Pipeline**
- Oil
- Oil long distance
- Gas
- Open proposed

**LNG**
- Export facility

**Major coal and petroleum operations and resources**

**Coal**
- Mine (including under construction)
- Conventional operations
- Mine (including under construction)
- Conventional operations

**Conventional gas and gas fields**
- Gas fields
- Oil and gas fields

**Closed production / Care and maintenance**
- Resource

**Coal seam gas**
- Resource

**Oil**
- Resource

**Gas proposed**
- Resource

**Population centre**
- Railway

**Biospheric and Ceramic Basins**
- Lake Ells, Lake Macdonald, Lake Wivenhoe, Lake Somerset, Lake Yarraman

**Undersea Basins**
- Canning Basin

**Oriental Basins**
- Gladstone Basin

**Middle Palaeozoic Chert/Rocks**
- Middle Palaeozoic Chert/Rocks

**Middle Palaeozoic Basins**
- Middle Palaeozoic Basins

**Middle Palaeozoic Halite**
- Middle Palaeozoic Halite
