The following directive is issued to ensure all MAH staff are potentially not put in a position of feeling pushed to provide commitments or risk feeling intimidated when dealing with s.78B

No one is to attend meetings with s.78B by themselves and any meetings with s.78B require a full set of notes to be kept not just actions items, signed and dated by the all staff who attended the meeting. All phone conversations are to be fully noted, signed, dated and placed on file.

This follows on from a recent meeting where a number of unsubstantiated claims were made. No physical treats were made and the staff member did not feel unsafe just pressured to provide unreasonable commitments.
