

# Mines that are PMHF or MHF

This context diagram shows your reporting and notification obligations for a mine that is a possible major hazard facility (PMHF), or a major hazard facility (MHF).

**Note:**

- Notices are required before operations start for mines that are a PMHF or an MHF.
- Notices are also required when the mine is upgraded to or downgraded from a PMHF or MHF.
- A safety report is required for all MHFs and a new safety report for an upgrade to an MHF.

**Legend**

- Process start
- Process end
- L Time period
- Event
- PMHF / MHF Form 1 Notification
- MHF Safety Report Report
- or Exclusive process
- and Parallel process
- Process flow
