<b>Fin YTD 16/17</b>	<b>(ALL ROPS)</b>		<b>514</b>	<b>87,460 ML</b>	<b>3%</b>	<b>\$1,014 /ML</b>

This table does not include water allocations associated with the sale of enterprises as a whole e.g. the sale of land and water comprising an irrigation farm.

# This column identifies the water priority groups available within each water supply scheme; data is presented by priority group.

@ This figure represents the volume of supplemented water transferred during the reporting period as a percentage of the total volume available for transfer. For each water supply scheme 'total water available' means the volume available for each priority group within that particular scheme; for the Period Total this means the total available for the entire ROP area; for the All ROPs total this means the total available for all ROP areas combined. This percentage figure is rounded up or down to the nearest whole figure.

\* This figure is a weighted average and is used so that the price is not overly distorted by very large or very small prices per ML. A value of \$0/ML indicates transfers for nil consideration e.g. by way of a gift.

^ WPBN refers to the Warrego, Paroo, Bulloo and Nebine systems.

**Disclaimer:** This document has been prepared with all due diligence and care, based on the best available information at the time of publication. The Department holds no responsibility for any errors or omissions within this document. Any decisions made by any other parties based on this document are solely the responsibility of those parties.

## Transfer of Ownership - Land and Water

In addition to the trade of water separate from land, water allocations can also be traded together with land as a 'going concern'. The table below presents the number of transfers of water and land together along with the total volume of water entitlement transferred and the portion of the total available water those transfers represent in each ROP area.

ROP	Number of Transfers	Total Volume (ML)	Volume Turnover (%) <sup>*</sup>
Barron	60	3468	2%
Border Rivers	10	2533	2%
Burdekin	18	4382	<1%
Burnett	114	13499.6	3%
Condamine-Balonne	11	794	<1%
Fitzroy	30	7348	2%
Logan	6	821	4%
Mary	12	581	<1%
Moreton	23	1512	<1%
Pioneer	30	3920	3%
WPBN <sup>^</sup>	1	20	<1%
Whitsunday	6	1141	2%
<b>Fin YTD 16/17</b>	<b>321</b>	<b>40,020 ML</b>	<b>1%</b>
Fin YTD 15/16	216	27,275 ML	<1%

\*Percentage of the total volume of water allocation traded with land in the reporting period.

<sup>^</sup> WPBN refers to the Warrego, Paroo, Bulloo and Nebine systems.
