## Further information for objectors

### Properly made objection

A properly made objection to an application for the grant of a mining lease is one that:

- is lodged with the chief executive on or before the last objection day for the application;
- is in the approved form (this form);
- states the grounds of the objection and the facts and circumstances relied on by the objector in support of those grounds; and
- is an objection lodged under section 260 that has not been withdrawn.

### Additional requirement

The person lodging this objection must serve upon the applicant a copy of this objection on the applicant for the mining lease on or before the last objection day.

**Note:** In accordance with section 11(2) of the *Electronic Transactions (Queensland) Act 2001*, an objector may only serve an objection to the applicant by email if the applicant has specified an email address in the prescribed form for the application for a mining lease. To effect service, the objector must only use this email address and not another email address (for example, not an email address found by searching the internet).

If an email address is not specified in the application form, it is taken that the applicant has not consented to service of an objection by email.

### Withdrawing an objection

You can withdraw this objection by giving written notice of the withdrawal to:

- a) the chief executive; and
- b) if the objection has been referred to the Land Court-
  - i. the Land Court; and
  - ii. the applicant

A withdrawal of an objection can not be revoked.

### Environmental authority

To make a submission/objection about an application or amendment application for an environmental authority, please refer to the Department of Environment and Science's website [www.des.qld.gov.au](http://www.des.qld.gov.au) for the appropriate forms.
