Rescinding the Notice for Deferred Aspect of Whitsunday Draft Resource Operations Plan

*Water Act 2000* (version current as at 22 November 2016) section 104A

2. Under section 104A of the unamended Water Act, notice is given that the Chief Executive of the Department of Natural Resources, Mines and Energy (the department) has decided not to amend the Whitsunday Resource Operations Plan to include provisions about the deferred aspect for unsupplemented water located within Andromache and O’Connell River subcatchments.

3. The reason for deciding not to amend the Whitsunday Resource Operations Plan is to allow for the transition of the Water Resource (Whitsunday) Plan 2010 to a Water Plan under the current Water Act.

4. To remove any doubt, the notice about the deferred aspect of Whitsunday Draft Resource Operations Plan dated 17 November 2011 is no longer in effect.

5. Enquiries relating to this notice should be directed in the first instance to Central Region Water Services on 1800 822 100.

Dated this 19th day of February 2020

Benn Barr

Deputy Director-General

Department of Natural Resources, Mines and Energy
